

PUBINNO

The Future of Draft

Trusted by top global brewers and over 2000+ bars, restaurants, and venues around the world, Pubinno's Smart System is the world's leading draft technology. Field-tested, effective, and **built to fulfill our mission of making every pint perfect.**

THE SMART SYSTEM

SMART TAP

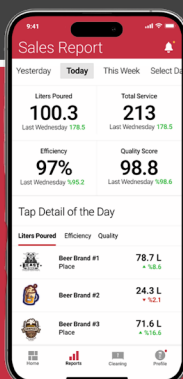

Easy to install on existing draft towers, Pubinno's Smart Taps significantly improve keg efficiency by eliminating excessive foam, waste, and inventory shrinkage. Better pints, better keg yields, better margins... It's a win-win-win. Businesses using our Smart Taps see an average 13% increase in draft beer sales. Seriously.

SMART CLEAN

Working exclusively with our Smart Taps, the groundbreaking Smart Clean automates the entire line cleaning process, eliminating the need for third-party service providers. Enhanced by patented **AquaVibra Technology**, our Smart Clean circulates your preferred cleaning solution with increased force and multi-directional circulation. The results? **400% more pressure on the inner walls of your lines and an 80% better cleaning.** It's a more thorough, efficient, and effortless cleaning experience.

SMART HUB

The user-friendly **Pubinno Pro App** empowers bar and pub owners with real-time data on sales, brand-based insights, and the ability to track KPIs, sales, rush hours, and all the factors that contribute to creating the perfect draft beer, including temperature, pressure, and keg freshness.

Winner of the **2023 World Beverage Innovation Award in Technology Innovation**, our Smart Taps are the world's most advanced draft technology in service of our mission for perfect pints everywhere.

SMART TAP

- Track every ounce poured through your draft system.
- Sell better, more consistent pints.
- Maximize your keg yield and draft profitability with active flow control and waste management

*Bars and restaurants see an average **13% increase** in draft sales after they install Smart Taps*

Better beer sells better. The groundbreaking Smart Clean automates the entire line cleaning process, eliminating the need for third-party service providers.

SMART CLEAN

- Portable & Powerful
- Fast & Easy To Use
- Sustainable - Uses less water and detergent

A more thorough, efficient, and effortless cleaning experience.

Clean your lines 4 times faster with Smart Clean. With just a few touches to connect the equipment, and one tap on your smartphone's screen, Smart Clean eliminates 85% of human touch, and at less than 25 lbs, Smart Clean is as powerful as it is portable, designed to be used whenever and wherever it's needed, so it's easy to move, stack, and store.

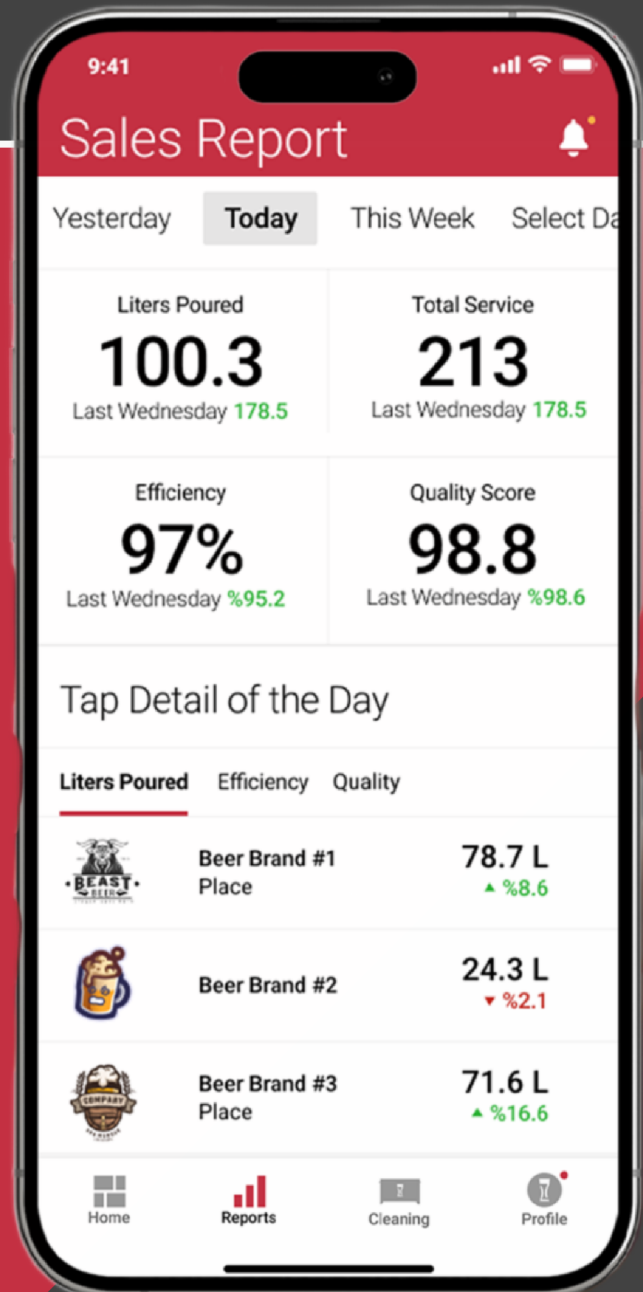

Bring it all together with the **Pubinno Pro App**, giving you quick access to your draft data, system alerts, and updates. Easy reporting lets you see exactly where every ounce of your beer went.

SMART HUB

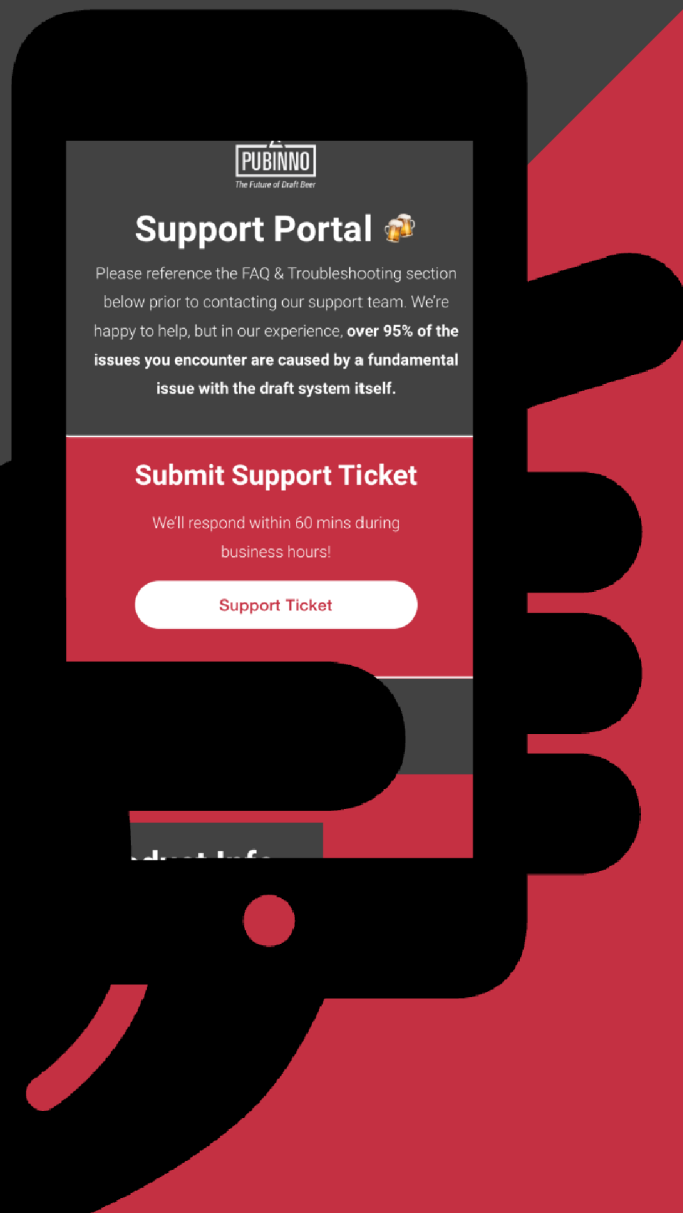

- Easy-to-use & Real Time
- Notifications and Alerts
- Brand-based Insights

The user-friendly **Pubinno Pro App** provides real-time data on the beer you sell, with the ability to track KPIs, sales, rush hours, etc. The app also gives you automatic temperature, pressure, and keg freshness alerts, keeping you one step ahead of draft issues that will interrupt your service and cost you money.

SUPPORT & ONBOARDING

Our team is based in New York City and we're here to make sure you're pouring perfect pints, seven days a week. Our **Support Portal** is the best in the business, and our team are experts on draft systems and education. You can access it, and submit a support ticket, any time you need it.

All Pubinno Smart Systems come with fast support and a thorough onboarding.
